

Simply Web: How to connect to WiFi and the Student or Staff Desktop (Windows 8, 7, Vista)

Subscribe ▲

Solution

About Simply Web

With Simply Web you can get connected to free WiFi on campus and access Northumbria IT Facilities using the Citrix Receiver from potentially anywhere in the world.

 *TIP: You can use NU Simply Web when downloading the Citrix Receiver in order to connect to the Student Desktop*

Connecting to WiFi

You can connect to University WiFi networks in most student and staff areas on campus. If you can't get a signal click the following link for WiFi coverage information: [Where can I connect to the WiFi network? \(view2.jsp?k2dockey=040730510414960\)](#)

Use the appropriate WiFi network for your device:

- NU Simply Web - for Laptops, iPads, Tablets
- NU Smartphone - for mobiles, smartphones, iPhone

Details

How to connect to WiFi

You will need to check that your device has the following configuration settings enabled.  *NOTE: You only need to do this the first time you use Simply Web. Changing these settings will not affect any settings you have enabled for other wireless networks*

WiFi Settings

- Right click on WiFi icon
- Click **Open Network and Sharing Center**
- Click **Set up a connection or network**
- Select **Manually connect to a wireless network** then click **Next**
- In Network Name type **NU Simply Web**  *NOTE: This is case sensitive*
- From the security type drop down menu select **WPA2-Enterprise**. This will automatically fill in the encryption type as **AES**
 -  *TIP: If your device does not support WPA2 your supplier may offer a free upgrade. Contact your supplier for instructions*
- Untick the option **Start this connection automatically** then click **Next**

- The message **Successfully added NU Simply Web** will be displayed
- Select **Change connection settings**
- Select the **Security** tab
- Check that **Protected EAP (PEAP)** has been preselected as authentication methodClick Settings
- UNTICK **Remember my credentials for this connection each time I'm logged on**
- Click **Settings**
- UNTICK **Verify the server's identify by validating the certificate**
- Click **Configure**
- Untick **Automatically use my Windows logon name and password** and click **OK** in all dialog boxes for the settings to be accepted
- Close the **Successfully added NU Simply Web** box still open on your screen.

Access to the Internet via Simply Web

- Select the **WiFi icon**
- Select **NU Simply Web** and click **Connect**
- In the **Network Authentication** box enter your Northumbria username and password
- You can now open your web browser and access the Internet in the usual way.

Continue with the following steps if you wish to connect to the Student Desktop or Staff Desktop using WiFi on campus or via your own internet service from off campus or in halls of residence:

Download the Citrix Receiver and connect to the Student Desktop

The Citrix Receiver is a small piece of software which makes the connection to the Student Desktop or Staff and takes little time to install.

- If you are **on campus** connect to **NU Simply Web** wifi network
- If you are **off campus** connect to the internet in the usual way
- Go to the Software downloads site at **www.northumbria.ac.uk/downloads**
- Click the links to download the **Citrix Receiver**
- Accept the License Agreement
- If prompted with a Citrix Download Manager - select **Download your file manually**
- Choose to Run the Receiver installation. The exact method will depend on your browser:
 - Internet Explorer - will provide a Run option
 - Firefox and Chrome - will only allow the file to be downloaded and you will need to run it from the downloads list
- If prompted, click **Yes** on the User Account Control screen
- At the end of the install you should be prompted to **Add Account** with your work email or server address
- Enter your **Northumbria email address**
- **Open Citrix Receiver**
- Select the **Student Desktop** icon
- When the desktop loads you will be able to access your files on the U Drive and standard application from the **Start** menu

Connection Problems?

If you are having problems getting connected, check the following for advice: I am unable to connect to Simply Web (Windows)
