

Getting Microsoft Office for personal use (Staff)

**Northumbria
University
NEWCASTLE**

This guide helps you to access the Office 365 website and access your free copy of Office. You can install Office on up to 5 devices, following the below steps each time.

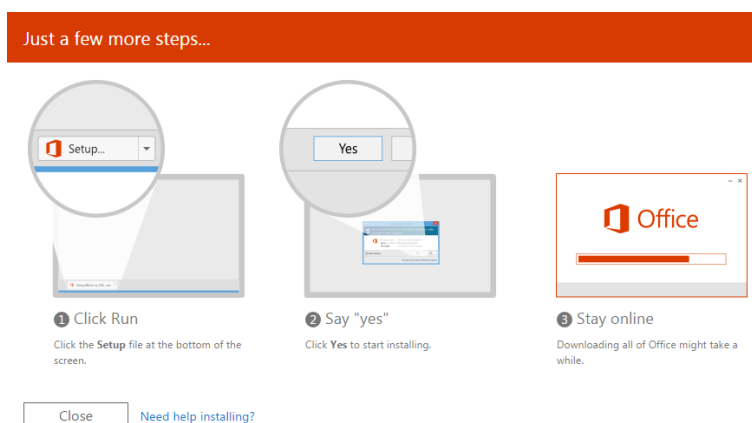

Note: You must do this on the computer you wish to install the software on, not a University one.

- 1 Go to the website <https://portal.office.com> and sign in with:
 - Your Northumbria Email - in the format: forename.surname@northumbria.ac.uk
 - Your Northumbria Password - this is the same password you use to logon to computers on-campus, Simply Web and the eLearning Portal
- 2 When you have signed in you will see the main landing page:

- 3 Click **Install Now** and the relevant files will start to download and a “just a few more steps” box will appear to help you through the process

You'll see there's also a **Need help installing?** link to assist you if you encounter problems

IT Support - open 24 hours, 365 days a year
