

# How to use Self-Service

## Installing software onto your University Apple Mac

As standard we will install key software, such as Microsoft Office, on your machine when you receive it. Further to this, Mac Self-Service holds many applications which you can self-install, without needing to contact the IT Helpline and have a technician call out.

### How to find and access Self-Service

- 1 While in **Finder**, select the **Go** menu then **Applications**
- 2 Double click on Self Service application and login using your Northumbria Username and Password

- 3 Select **Installers** from the right hand menu
- 4 The list of available items will be on the left hand side - click to install software and follow the prompts.

### IT Support - open 24 hours, 365 days a year
